Congratulations to Shang, Eric Tzeng, and Stephanie who were the first three to submit the correct answer to last week's puzzle on our website (http://puzzle.berkeley.edu).

This week's puzzle is called a Dropquote. To solve it, fill the white boxes in each column with the letters above that column, such that the grid spells out a quotation from a famous work. Black boxes separate words. If there's no black space, words will wrap around the end of the line. We've started the puzzle for you. The box marked with an asterisk will give you your final answer, but don't fill it in like the other boxes: fill it in by completing the quote. Remember that the answer will be a single letter.
